TextSelect: online course materials adoption platform
Before you can submit an adoption, you will need to sign in to TextSelect using your UVic Netlink account.

Do not include the @uvic.ca part when entering your Netlink ID.
On your first login, you will be asked to complete your profile. Please select your role and departments, then click the ‘Submit’ button.

You can get back to this page at any time via the ‘Profile’ link in the header.
Once you have filled in all course information pertinent to the textbook adoption, click START ADOPTION.

After completing your profile (and any time you log in in the future), you will be taken to the homepage. Here you can fill out the form on the left to start an adoption. Previous adoptions associated to your Netlink account will appear here. From this spot, you will be able to review and edit.
Add the information of *everyone* involved with the course. This includes all instructors for other sections. Once the adoption is submitted or changed, confirmation emails will be sent to everyone included.
Assign instructors to their sections and include maximum enrolment numbers.

Click here to add Sections if necessary
If users have all of the relevant information, they can manually add course materials. If not, you can search the database to find what is needed.
Once you’ve found the right book and edition, click ADOPT THIS BOOK.
Fill in all information and any relevant notes.
